SKILLS

ADVANCED: JavaScript, Node.js, SQL(PostgreSQL, Sequelize), AngularJS, Express, jQuery, HTML, CSS, Adobe Photoshop, Git/Github

PROFICIENT: Ruby, React, ES6, Sass/SCSS, Test-Driven Development, Firebase, Jasmine, Mocha/Chai, Material UI, Gulp, Webpack, Heroku

PROJECTS

Poesis | Full Stack Engineer

Oct 2016

- Web-based poetry editor built with AngularJS, Node.js, Express, Bootstrap, CodeMirror API, Gulp, HTML, CSS, and SCSS
- Enabled back-end to communicate with an API-less 3rd-party cgi script, using buffered multipart/formdata requests
- Created the headline front-end feature - rhyme detection mode - which styles user-input text based on pronunciation
- Deployed at <http://thepoesis.herokuapp.com>

YourTurn | Sole Developer

Sep 2016

- Real-time single webpage app displays waiting queue for Gym Equipment
- Built with React, Webpack, ES6, Material UI, Slack API and Firebase for real-time updates

CodeFriends | Full Stack Engineer

Sep 2016

- E-commerce site built with AngularJS, Node.js, Express, PostgreSQL, Sequelize, Mocha/Chai testing, HTML, CSS/SCSS, jQuery, and Stripe API
- Engineered administrator dashboard to manage users, products, and orders
- Wrote automated test suite for backend API, preventing regression
- Integrated Stripe payment flow into checkout page

EXPERIENCE

The Six Senses

Co-Founder, Lead Front End Engineer & Lead Designer

Mar 2008 - Jan 2014

- Built and maintained fan-site with Javascript, HTML, CSS, Photoshop, and Namo WebEditor
- Administrated #1 ranked fan site in its category on Google, Yahoo etc. with 20K+ users and 10k+ views a day
- Generated \$10k for the Seoul city's Forest charity project
- Worked as a liaison, primary contact and translator, between admins and fan-sites in the U.S, China and Japan, bridging language barriers

LG CNS America Inc.

Business Development Intern

Jun 2014 - Aug 2014 - Englewood Cliffs, NJ
